Summary
& Exterior

We acknowledge and thank the Lkwungen (Lekwungen) People, also known as the Songhees and Esquimalt First Nations communities, for allowing us to live, work and play on their lands. We also give thanks to the ancestors, supernatural ones, hereditary leaders and matriarchs, creatures big and small for looking after the rich resources and cultural teachings of this beautiful land.

CONCEPTUAL RENDERING

Westhills is a master-planned community encompassing more than 500 acres, comfortably nestled on the picturesque south shore of Langford Lake within the City of Langford. This award-winning project represents the future of responsible development in our region, driven by the principles of design excellence, environmental stewardship, and affordability.

The City of Langford was recently ranked the most livable community in Canada, and it's easy to see why. “It’s a wonderful place to live. You’ve got everything. We don’t even go to Victoria anymore. Everything is here, the stores are here, the YMCA/YWCA is here now, the library is here, we’re getting a pub. What more can you ask for?”

- Westhills Home Owner

“I think we were out here at a park in the Langford area, one of the lakes, and we saw the neighbourhood and we were like, let’s just cruise up there and check things out. We saw the show home. Popped in. And that was our first experience. We didn’t even know that anything like that was out here.”

- Westhills Home Owner

“There’s a real sense of community around here. It’s pretty exciting for us to look forward to that and see what’s to come. What kind of future we’re going to have, what kind of future our daughter is going to have. It’s looking pretty bright right now.”

- Westhills Home Owner

“When I talk about it with our friends it’s how do you want to live? Do you want space? Do you want tall ceilings? Do you want an ensuite? Do you not want to spend your time and effort and endless dollars renovating old houses? Come out here. You’ll be blown away.”
